Entertainment For Charity

The entertainment given by the King's Daughters for sweet charity, on Tuesday evening at the Congregational church was not as liberally patronized as it should have been, due in a large measure to the unfavorable weather and the plenitude of gatherings and entertainments incident to the holiday season. The exercises were interesting and of a high order, the program including an organ solo by Miss Bessie Clark; prayer by President W. C. Whitford; sacred solo by Mrs. L. A. Platts; recitation by Miss Anna Jackson; reading by Miss Bessie Clark; instrumental music by Messrs. E. F. Loeboro and F. M. Barker; vocal trio by Messdames Platts; P. L. Clark and G. R. Boss; and ten minute addresses by Dr. Platts and Reverends Carpenter and Chambers. Coffee and wafers were served without charge.

Vincent Rose.

Fully seventy-five guests were present Wednesday evening, Dec. 30, 1896, at the residence of Nathaniel M. Rose at Rock River, in this township, to witness the marriage of his daughter Miss Mary Almira Rose, to Elmer Darius Vincent. The ceremony was performed by President W. C. Whitford. Harry Swader and Miss Daisy Bell Vincent acted as groomsmen and bridesmaids. The "Crandall boys" furnished the music. The presents were numerous and valuable. A bountiful and substantial supper was served. The married couple soon begin house-keeping at the residence of Mr. Vincent's mother, Mrs. Almira Vincent, the widow of Orrin D. Vincent, who died some years ago.

Regarding Ed. Weaver.

We clip the following in regard to a well known former Milton man, from the Lake Crystal, Minnesota, Union. "Mayor Ed Weaver of Mankato, was in town last Friday afternoon looking after the interests of the Case Threshing Machine Co. Mr. Weaver is a deservedly popular all over the state, and has a host of friends in every town who are always pleased to see him—Amboy Herald. Yes, and Mr. Weaver could very easily have gone to congress if he had listened to the advice of friends who were friends instead of friends who simply wanted to side-track him. But Ed is still young and his supporters as loyal as ever. Watch his smoke in two years."

The Week of Prayer.

The week of prayer will be observed here and meetings on Monday and Tuesday evenings will be held at the M. E. church. Wednesday and Thursday at the Congregational church. Friday and Saturday at the S. D. B. church. Rev. Dr. Palthe will preach Monday and Thursday evenings, Rev. George R. Chambers Tuesday and Friday, Rev. W. T. Millar Wednesday and Saturday. The first half hour of each evening will be given to devotional exercises.

Wilbur—Morgan.

Miss Inez Morgan, daughter of H. S. Morgan of Lima, and Wayne Wilbur of this village, were united in marriage Wednesday afternoon by Justice B. H. Stillman. The bride has been a student here since the school year began and Wilbur has been clerking in Clarke's drug store. A reception was given them at the home of Mr. and Mrs. E. H. Wilbur, Wednesday evening.

The republican members of the House Ways and Means committee are all men of wisdom and experience and can be trusted to prepare a tariff bill that will be in accordance with the republican platform and the expressed wishes of a majority of the American voters.

The national officers of Knights of Labor don't seem to know how to profit by experience. They have allowed their organization to be tied to the tail of the free silver kite for keeps. No better method of breaking it to pieces could have been devised.

Some of the men who will retire from office on the 4th of next March are of the opinion that the times are sadly out of joint, but as a matter of fact their retirement is merely the result of common sense among the

business men committed to the hands of the "Hogan" under Sheriff Hogan. They feel their position is a precarious one, and they are sure that he will find them.

Too Much for His Conscience.

"Do you mean to call me to testify to that man's reputation for truth and veracity?" asked the small, timid-looking witness.

"Certainly," replied the lawyer.

"Well, I wish you wouldn't."

"Why?"

"Well, you see, he's a life-long friend of mine, and I wouldn't for the world do anything that would hurt his feelings or damage his interests; not for the world."

"But all you have to do is to say that his reputation for truth and veracity is good."

"Now, hold on. Remember that I have some truth and veracity of my own to look after. Why, sir," and his voice sank to a melodramatic whisper, "that man's been a trusted employee of the weather bureau for more than four years!"—Washington Star.

Angrier Than He Thought.

The boy whose business it was to answer the telephone rushed into the room of the senior partner.

"Just got a message saying your house was on fire," he said.

"Dear me," returned the senior partner, in a bewildered sort of way, "I knew my wife was pretty hot about something when I left home this morning, but I didn't think it was so bad as all that."—Chicago Post.

Why He Was Depressed.

OLD-TIME SOUTHERN SPORTS.

Members of Hunting Clubs on Whom Big Fines Were Imposed.

Among the sports of olden times the hunting clubs were prominent everywhere, says the Atlanta Constitution. In Camden County one of the most famous clubhouses in this country was built at Bear Hammock and kept under the supervision of Gen. John Floyd. It was there that the Camden County Hunting Club, organized in 1832, held its meetings, made its rules and imposed its fines. The charter members of this club were Charles R. Floyd, Richard Floyd, Henry Floyd, John Floyd, Ben Hopkins, J. H. Dilworth, James Holzendorf, John Holzendorf, Alexander Holzendorf, P. M. Nightingale, William Berrie and Henry du Bignon. Several members joined afterward. The club dress was a scarlet jacket and black pantaloons and a fine of 500 copper caps was imposed on Alexander Holzendorf at one meeting for not having on the regulation dress. No member was to be absent from the meetings unless by good excuse and James Holzendorf was fined 1,000 copper caps for one absence. After the day's hunt, sometimes with the luck of sixteen deer, an elegant dinner was served before dispersing. The seventeenth rule read: "Game is considered by the club to be deer, bear, hogs, cows, bulls, wildcats and turkeys." Wild cat and hogs abounded in the woods in those days, the latter living to an old age, which was told by the tusks, sometimes eight to ten inches long.

Vernacular.

"He is mad!"

The new footman heard the words and trembled in his shoes.

Into what kind of a family had the fates at last thrust him? he thought.

Upstairs he heard a loud voice resounding through the hall and occasionally a tremendous bang, as if some article of furniture were being hurled from one end of the room to another.

"He is mad!"

The servants clustered together and the expression on their faces showed that they were decidedly uncomfortable.

He Who Truly Loves.

Some one has well said that he who truly loves the church of God is he who truly loves the God of the church.

Church membership is a solemn obligation, and he who neglects the house of the Lord does so at fearful risk. On the other hand, he who becomes a faithful attendant upon the services of the sanctuary will find a constantly increasing delight in taking his place among the people of God.—Detroit Free Press.

Then He Left.

It had been time for him to go for nearly an hour, but still he lingered. Then, in some way, the subject of telegraph codes came up, and he said:

"Speaking of ciphers, the—"

"Now, don't be egotistical," she interrupted.

Then, at last, he decided that it was time to go.—Chicago Post.

WOMEN DISCOURAGED.

GOOD AND SUFFICIENT REASONS FOR THE BLUES.

Doctors Fail to Understand Symptoms That Are Danger Signals.

The trait in woman's character is an implicit confidence in her

work entirely from theory in the treatment of female diseases, for unfortunately facts based upon actual knowledge, belong to the female sex alone. Many women who periodically suffer with attacks of faintness, dizziness, extreme lassitude, "don't care"

or want-to-be-left-alone feeling, do not at first realize that these are the infallible symptoms of womb trouble and the forerunners of great suffering.

Soon they grow to feel that the doctor does not understand their case. Then they remember that "a woman best understands a woman's ills," and turn to Mrs. Pinkham.

The following letter is but one positive illustration of this fact:—

"Four years ago I began to suffer with great weakness of the generative organs. My womb was prolapsed; I suffered with continual backache and all the other pains that accompany that weakness. I tried doctor after doctor, had operations. The final operation after which I became a total wreck, was scraping of the womb. A friend, one day, recommended to my husband your Compound. He bought me a bottle. The relief I experienced after taking it, was wonderful. I continued its use, and I am glad to say my recovery is a perfect surprise to everybody that knows me."—Mrs. B. BLYNN, 4940 San Francisco Ave., St. Louis, Mo.

FIGURES ON FIRES FOR THE PAST YEAR

CHIEF SPENCER'S ANNUAL REPORT READY.

Interesting Facts are Given Concerning the Department's Work—Answered 54 Alarms—Losses so far Settled Aggregate \$24,936.97—To Make Recommendations to Council.

Chief Engineer Spencer has completed his report for 1896, showing the number of fires for the year in detail, together with the service of the department. There were fifty-four box alarms; two sent in by telephone; eight for which no alarms were given and eight were caused by adjacent fires.

The total loss sustained during the year, not including the Bee Hive and street car power house, is \$24,936.97. Of this amount \$11,298.30 was on buildings and \$13,638.67 on stocks or furniture. The insured loss paid being \$21,631.97, and the uninsured loss estimated, \$3,305; \$1,075 being on buildings, and \$2,230 on stocks and furniture. The amount of insurance involved was \$259,525, \$107,425 being on buildings and \$152,100 on stocks and furniture.

Some Interesting Figures
The department stretched 40, 300 feet of hose raised 1,156 feet of ladders, the fire patrol used fifty nine extinguishers and spread thirty-six covers or tarpaulins. The distance traveled in reaching these fires was sixty eight and one quarter miles and the department was in service fifty eight hours.

Taking the surrounding conditions into consideration the chief engineer is pleased with the fact that fire losses have been kept down to a minimum. He maintains that the smoke loss sustained by J. M. Bostwick & Sons at the time of the Crumney & Brooks fire on South Main street, was owing to a poor party wall, and that the department was in no manner responsible for the loss. The same is claimed to be true in a number of other cases. Nevertheless, the number of fires is greater than in any previous year in the history of the city, the total loss being only \$1,034.83 greater than in 1895.

To Make Recommendation
It is estimated that the insurance premiums paid during 1896 will amount to \$60,000 from which amount deduct the insured losses as above noted and it will be seen that Janesville is a profitable field for insurance companies.

The chief engineer will renew, in his report to be presented to the common council at the next meeting, his recommendation for a chemical engine, believing such apparatus to be the best and cheapest protection that can be given to property remote from the water mains, besides being almost indispensable in extinguishing fires in the center of the city, preventing unnecessary damage by a flood of water.

The chief will also recommend several extensions of the water mains, on Mineral Point avenue from Pearl street west to Pine street; on Prairie avenue from Walker Street north to Benton avenue; on Racine street from Main street east to Ringgold street; on Lincoln street from North street south to Western avenue.

TRIBUTE TO A DEAD MEMBER

A circumstance passed without comment was noted at the banquet of the Wisconsin Central Medical society, held in this city. Dr. J. E. Whiting was called upon to act as toast master. As he arose to announce the first toast he said:

"Mr. President—I beg you to allow me a moment of reminiscence. More than a third of a century ago I came to this goodly city. Of the more than twenty physicians who were then located here, I find myself the only one present on this occasion. Many of those men gained local distinction. A few had a wider reputation. You recall one whose reputation was wider than the state. He was a man of marked individuality and strong purpose. As was said by his biographer at the time of his death, 'He never laid his hand on anything that did not leave its imprint.' Whatever he grasped he never relaxed his hold, no matter how hot it became, till his ultimate purpose was accomplished. Gentlemen, may I ask you to rise while I pronounce the name of Henry Palmer."

Several sites for the factory have offered, and the propositions are under consideration.

"I am fully satisfied that the factory will be located here," said one of the canvassing committee today. "We have had excellent success, and the prospects are excellent."

CAPT. GLASS PLEADS NOT GUILTY

Former Commander of the Light Infantry Denies the Charge.

Captain Charles F. Glass appeared before Judge Phelps today, charged with the embezzlement of \$416.21. He pleaded not guilty, and was released on \$500 bonds, J. H. Myers and E. C. Johnson appearing as sureties.

W. A. Jackson represented the state, and Dunwiddie & Wheeler represented the defendant. The case grows out of the Light Infantry complication several years ago. When Captain Glass resigned, a shortage was alleged to exist, and his bondsmen were called upon to make good the deficiency. Captain Glass was called upon by them to turn a considerable amount of his property over to meet the claim.

The bondsmen were not satisfied, however, and becoming impatient over delays in settlement determined on criminal proceedings. The complainant in the present instance is W. T. Vankirk, and the misappropriation of \$416.21 of state funds is alleged.

Capt. Glass was arrested in Galesburg by Sheriff Appleby. He made no protest against returning. He reached the city yesterday afternoon and spent the night in the personal custody of Sheriff Appleby, not being committed to jail.

E. SUMMERIL WAS BADLY HURT

Aged Man Caught By a Belt at the Machine Company's Plant.

Ephraim Summeril was caught in the shafting at the Janesville Machine company's plant and so injured that he is now confined to his bed at his home, 165 Washington street.

The accident took place in the blacksmith shop and was caused by the accidental coming off of the belt which caught its victim.

Dr. J. F. Pember was called and found that Summeril had received severe bruises, and that one rib had been fractured. Mr. Summeril is seventy years of age, so that the injuries are more serious than they would be with a younger man. Dr. Pember said the patient was resting as comfortably as could be expected, this afternoon.

HER EYE TORN OUT WHEN FORK SLIPPED

TOWN OF CENTER CHILD FEARFULLY INJURED.

Was Eating Bologna Sausage, and May be Permanently Blinded as the Result of the Accident—One Eye Made Sightless and the Other Effected—Victim but a Babe.

Little Mary Gottschalk, the four year old daughter of Mr. and Mrs. William Gottschalk, of the town of Center, tore her eye out with a fork while eating bologna sausage, and may become totally blind.

The child was using the fork to loosen up the meat, holding the latter in her hand. The tines of the fork became securely imbedded in the sausage, and she exerted some strength to disengage it.

When the meat gave way the fork was plunged into her eye with great force, puncturing the pupil and allowing the fluid to run out.

Dr. J. P. Thorne, the oculist, was called. He found that the sight of the left eye was totally destroyed, and that the right one was seriously effected through "sympathy."

He will remove the sightless optic in hopes of saving the other one, but the operation may not succeed. If it does not, the child will be permanently blinded.

Her parents are well known town of Center residents.

To the traveler is attached the car, whose wheels clasp the rails tightly and will not allow it to be pulled off by the upward pressure. The engineer controls the gas in the balloon by means of a cord, and he has at his disposal many safety devices which he can use to prevent accidents.

If that were known in advance owners would be pretty certain to apply for insurance. Fires are hard things to guard against. Why run useless risk. Insurance in the best companies is cheap---in any but the best it may be dear at any price.

A Tumble in Cloak Prices...

There are as handsome garments in our cloak room as when the season began. Many of the finest styles are here yet, as is often the case, the best are left because of their expensiveness. We upset the prices on all now and cut the price on every garment in half. This cut does away with their expensiveness, but it doesn't affect the quality. They are just as stylish, just as good, but not so costly, that's all. Today and every day we offer

Any Coat or Cape in The House at Half...

and we give a Muff free with every purchase. We are for your Cloak trade because we know we can do you good. We are selling a great many garments because we are selling them cheap.

We shall be glad to have you come in and ask us all about it. Costs nothing to look and we are pleased to show.

THE METHOD OF A GREAT TREATMENT FOR WEAKNESS OF MEN.

WHICH CURED HIM AFTER EVERY-
THING ELSE FAILED.

Painful diseases are bad enough, but when a man is slowly wasting away with nervous weakness, the mental forebodings are ten times worse than the most severe pain. There is no let up to the mental suffering day or night. Sleep is almost impossible and under such a strain men are scarcely responsible for what they do. For years the writer rolled and tossed on the troubled sea of sexual weakness until it was a question whether he had not better take a dose of poison and thus end all his troubles. But providential inspiration came to his aid in the shape of a combination of medicines that not only completely restored the general health, but enlarged his weak, emaciated parts to natural size and vigor, and he now declares that any man who will take the trouble to send his name and address may have the method of this wonderful treatment free. Now when I say free I mean absolutely without cost, because I want every weakened man to get the benefit of my experience.

I am not a philanthropist, nor do I pose as an enthusiast, but there are thousands of men suffering the mental tortures of weakened manhood who would be cured at once could they but get such a remedy as the one that cured me. Do not try to study out how I can afford to pay the few postage stamps necessary to mail the information, but send for it, and learn that there are a few things on earth that although they cost nothing to get they are worth a fortune to some men and mean a lifetime of happiness to most of us. Write to Thomas Slater, Box 424, Kalamazoo, Mich., and the information will be mailed in a plain sealed envelope.

If anybody can make a good wheel Gormully & Jeffrey ought to. Everything their experience could suggest has been done to make the '97 'Rambler' perfect. Come in and see it.

Cape Henry, Va., Jan. 2.—The British steamship Sardinian Prince, with a general cargo from New Orleans, La., for Antwerp, via Newport News, Va., went ashore near Wash Woods, N. C., early Friday morning during a dense fog. Four powerful ocean tugs went to her assistance, and the vessel was floated at 4:30 p. m., and proceeded apparently uninjured.

Imperiled Negroes Innocent.

Guthrie, Ok., Jan. 2.—Eve Morrow, the 12-year-old girl who was terribly injured at the time her father was murdered at Perkins, two weeks ago, has recovered sufficiently to speak, and has told the physicians that two white men after having followed her father and her all day committed the crime. This clears the negroes under arrest who were so nearly lynched. It is believed that the white men were members of a gang of horse thieves against whom Morrow testified some time ago.

Ingalls Not to Succeed Depew.

Cincinnati, O., Jan. 2.—When the attention of M. E. Ingalls of the Big Four railroad was called to a published rumor that he is to be promoted to succeed Dr. Chauncey M. Depew of the New York Central road, and that Dr. Depew is to receive a first-class diplomatic appointment from President McKinley, he frankly and quickly replied: "There is nothing in it so far as I am concerned."

Buried Under a Train Wreck.

Lima, O., Jan. 2.—Thursday night an engine on the Lima Northern road was thrown from the track near Leipsic by a rail spreading and turned over on its side. Engineer Hill and his fireman and brakeman Seigrist of this city were buried in the wreckage of the cars and the former badly and the latter fatally injured. The fireman escaped without injury.

Gov. Black Inaugurated.

Albany, N. Y., Jan. 2.—Frank S. Black of Rensselaer county was inaugurated governor of New York Friday. The ceremony took place in the assembly chamber of the capitol, and was witnessed by a large assemblage.
